### Paragraphs of Current Interest for the Investor.

phone business, even in Jersey, which is verified by the desire of the New Jersey division of the American Telephone and Telegraph Company to issue \$25,000,000 in bonds for new financing. The Public Service Commission has been asked to grant permission for such an issue, and of course the telephone company needs the money.

## Our Growing Importance.

The financial importance of the United states is rapidly providing a distinct position for this country among the great sition was powerful owing to our wonderful agricultural resources and to the fact that American wheat was a chief factor in feeding the world. Now, however, the inited States is gaining an importance in a variety of exports and in money, and our enief financial institutions are reckoned glong with the powerful banking houses of Europe. And still we are growing.

#### German Business Activity.

finances than the corresponding period of mil This was particularly true as regards leans on collateral, where there was a large increase. The general business in Germany is active, which fact is registered by an advance of about 28 per cent in the April Clearing House returns.

#### According to "The London Economist."

great depression prevails in Italy and trade stagnant. The bourses are in a state of pasic, and it is all due to the terrible drain on that country's exchequer caused by the Silver Going Up.

Italy's Bad Conditions.

The increasing price of silver may start some revival of the buried cause of bimetallism or bring back to public observation Coln Harvey and the little schoolmaster. Stock certificates may be printed in silver, instead of gold, if the price keeps up.

The present optimism of President Ripley rallroad rates was being discussed pro and con a few years ago. After all, this country seems to be large enough and to have growing power sufficient to overcome many tages seem to be suicidal.

#### High Cost of Diamonds

news of the advance in the price of diamonds is distressing to no one in particular except persons who want to buy them sible that in the average table of necessities showing the high cost of living diamonds will be included. On the other hand, the select few stockholders and the syndicate which control the diamond outt must be fairly happy.

#### Small China Stock

It is stated that the stock of decorated and plain china in bond on April 20, 1913. was the smallest during a period of twenty-

#### Telephone Dispatching.

The development of the telephone in cor nection with railroad service is one of the improvements which has done much to surround travelling by rail with safety. The telephone has been tried by many of the silroad systems and its use has demonrated that it is more efficient than the ider method of train dispatching by telegraphing. According to the Interstate Comserce Commission, practically 59,000 miles of road will have been equipped for telehone service by the railroads by the end The service secured through the se of the telephone by rallroads is quicker more satisfactory and far more extensive than the telegraph. Trains have been he saving of time and reduction of the ele-

## MARKETS AND POLITICS.

market to politics is handled in "The Bache Review" of Saturday, May 25, as

apparent indifference of business and of stock market to the tremendous activity in the political market. The large urbed at least the stock market in the ordinary way of reading the meaning of such a majority, but the effect was practically

this and former years, when a triumph of appeal to discontent would have produced

that the primaries, after all, do not settle anything, that only a fraction of the voters act, and that this fraction is comcosed of an element which is not definitely

has made political turmoil seem a matter Indifference to business and finance is enditions are sound, and that high fisastrous. And, in any event, whoever is ucating the public as to the safest can-

Confidence in the market by large calers is based on the satisfactory progress of business and the favorable development of the crop, and there is a confirmed elief that for at least a month or two nent in business is based on the rising emand resulting from a long period of reslow, but steady, and all the more efectual on that account. Prices are rising

ecurities is thus afforded, especially in the the benefit of enlarging crop transporta-
